

Dear Business Owner/Manager:

Are you aware that Fox News on your television says “only the Far-Right are welcomed here”?

Contrary to their slogan, Fox News is not “Fair and Balanced.” In fact, the network has a shameful record of twisting events and deceptively editing video to promote its Far-Right philosophy.

On behalf of the many customers patronizing your establishment, who do not see the world through right-wing glasses, I respectfully request that you permanently change the channel on your publicly viewed television(s) to something other than Fox News. With so many other channels available, surely you can find an alternative that is not so offensive.

This handout was printed from www.TurnOffFoxNews.com, a website dedicated to Fox-free public environment. For information on the Turn Off Fox News movement, please visit www.TurnOffFoxNews.com.

Thank you in advance for showing consideration to people of all political viewpoints.
